OIL DRILLING VERY PROMISING

In addition to the drilling that is being done between Fabian and Edgerton, the Wainwright Petroleum Ltd. have completed arrangements to start drilling on L. S. 6 of Section 30-45-6-W1. This company purchased a standard rig some two years ago but till recently have been unable to start drilling. Mr. H. C. Lee, who has been in Toronto for some time has arranged for sufficient finances to drill at least three wells and he expects to be able to start drilling on the first well early in May.

The other company, the Capital

Royalties Limited, who secured nearly two thousand acres of Government leases some two months ago, most of which lays North and East of Irma, are arranging to make an early start in testing out their acreage. A standard rig capable of making a deep test is being shipped to Irma and a new steel derrick should arrive here during the early part of May. Several other companies have had men in the district looking over locations that are available and from all appearances 1929 will be the busiest season in the Central Alberta oil fields have seen.

SUNNY BRAE

The ladies of Sunny Brae, old neighbors of Mrs. Seton spent a very pleasant afternoon on Monday, April 8th at the home of Mr. and Mrs. F. W. Higginson when they gathered to pay homage to Mrs. Seton and spend a few hours with her before she left the following Friday for her new home in Edmonton at 9820-91st Ave.

The afternoon passed quickly away in conversation followed by a lunch which would have satisfied a threshing crew, each lady having contributed toward it. While still sitting around the tables a short address was read to Mrs. Seton and Mrs. Sanders and Miss Kathleen Knowles entered the room with an artistic electric table lamp and a pair of book ends to match, and presented them to Mrs. Seton, who made a feeling reply, conscious of the fact that it was the last time in all probability that she would meet all the old neighbors together here.

The Saturday previous Mrs. Geo. Knowles gave a party at her home for Charlie Seton to which all his school mates were invited. Owing to the snowy weather they had to spend the afternoon indoors, but we understand they spent a thoroughly enjoyable time playing games, etc.

The Order of the Eastern Star gave a very interesting whist drive last Monday evening but owing to the very wet weather the crowd was not as large as expected, but those who attended spent a very enjoyable evening. The honors for the ladies were taken by Mrs. W. Masson, first prize and Mrs. R. J. Tate second, while Mr. Russell of Jarrow took the first prize for gentlemen with Mr. W. Cole of Irma second. The ladies of the Order served dainty refreshments after the games were completed.

NOTICE

IN THE MATTER OF THE ESTATE OF JAMES NIGEL CARISTON SETON, LATE OF THE VILLAGE OF IRMA IN THE PROVINCE OF ALBERTA, Deceased, Farmer.

NOTICE is hereby given that all persons having claims upon the estate of James Nigel Cariston Seton, who died on or about the 29th day of January, A. D. 1929, are required to file with the National Trust Company, Limited, 10076 Jasper Ave., Edmonton, or Agnes Seton, 10076 Jasper Ave. Edmonton, Executors of the Estate of James Nigel Cariston Seton, deceased, by the 31st day of May, A.D. 1929, a full statement, duly verified, of their claim and of any security held by them and after that time the executor and executrix will settle the estate of the deceased among the parties entitled thereto having regard to the claims so filed only or which have been brought to their knowledge.

DATED this 17th day of April, A. D. 1929.

TIGHE & KERR, Imperial Bank Chambers, Edmonton, Alberta, Solicitors for The National Trust Company, and Agnes Seton, Executor and Executrix of the Estate of James Nigel Cariston Seton, deceased.

NOTICE

Applications will be received by the Secretary Treasurer of the Municipal District of Battle River No. 423 for the assessing of the said Municipal District. Applications to be in the hands of the Secretary Treasurer before the next meeting of Council on the 14th day of May, 1929.

M10. R. J. Tate, Sec'y-Treas.

CHURCH NOTICES AND ACTIVITIES

CHURCH NOTICES

Sunday, April 21st, 1929
Services at Irma at 7:30 P.M.
Alma Mater at 2 P.M.
Roseberry at 3:30 P.M.
The Rev. J. G. Wollatt, B.A. of Edgerton will preach and if the roads are good the Irma Choir will sing at all services.

The Ladies Aid will meet with Mrs. Osterhout on Thursday, April 25th. The I. O. O. F. will parade for Divine Service at United Church, Sunday April 28th at 2:30 P.M.

ANGLICAN CHURCH

A Confirmation will be held by the Lord Bishop of Edmonton in the Masonic Hall on Sunday, April 28th at 11 A.M. He will be the preacher at the service.

A. M. Trendell, Vicar Wainwright.

NOTICE RE CHURCH PARADE

To the Officers and Members of Irma Lodge No. 56 I.O.O.F. and all Odd-fellows within the District: please note that the Lodge will parade to the Irma United Church for Divine Service to commemorate the one hundred and tenth anniversary of the Order, on the afternoon of Sunday, April 28th. Meeting at the Lodge room at 2 P.M. Sharp.

Chas. Wilbraham, Sec.

WRITES BRIEF LETTER, TAKES HIS OWN LIFE

"Nothing to live for; don't want to bother anyone." This is the hastily scribbled note which Alexander Dewar, 58 years, penned before sending a bullet from a .22 calibre rifle into his brain on his farm seven miles north-east of Wainwright, Tuesday afternoon.

Dewar, who was a bachelor, worked the farm by himself, and despite the investigation carried on by Dr. Wallace, coroner, and Sgt. Stewart of the Wainwright detachment of the A. P. P., no motive for the deed could be discovered. An inquest was not deemed necessary.

Two sisters and a cousin of the dead man reside on neighboring farms and the body was turned over to them for burial.

The Saturday night dance in Kiefer's hall was well attended and had a good time. These dances will be continued every Saturday evening from 9 to 12. Coultman's Orchestra furnishes the music.

NEWS ITEMS FROM KINSELLA

Mr. Wm. Rees has moved out to the M. Trestadt farm, and is buying equipment to farm this year. Mr. Rees recently dissolved partnership with Mr. E. C. Williams, the lumberman at Kinsella.

Miss Irene Weather has accepted a position at Sedgewick.

The many friends of Mr. Olaf Overbo will be pleased to know that he is recovering nicely since having undergone an operation at the Central hospital at Edmonton and is expected home the end of the week.

Mr. Harold Anderson has left for Edmonton to commence building grain elevators along the line.

Mr. Smith, buyer of Edmonton shipped a carload of horses from this district for Edmonton last week.

Mr. James Walker, who recently had the misfortune of having his head badly cut, and his ankle twisted in a runaway accident, is reported well on the road to recovery at the Wm. Anderson's home. He is unable, as yet to have the use of his injured ankle.

Mr. C. Garvick arrived this week from Telemarken, Norway. Mr. Garvick reports hard times in the oil country, with very little chance of earning any money. The ones that are fortunate to secure employment are compelled to pay a tax of 22 per cent. on their earnings to the different municipalities. Mr. Garvick is highly pleased with conditions as he sees them so far in Alberta, and is expecting several immigrants to reach here during the spring and summer months from his home land.

Snow has fallen pretty steadily the past few days, and is much appreciated owing to the shortage of moisture last fall, and the small amount of snow this last winter. This recent snowfall, which amounted to about six inches will be of great assistance in exterminating, and will give the early season a real live start.

A meeting of those interested in the skating rink was held in Lees Hall this week. It was decided to purchase an acreage adjoining town, and to have a well put down. The following officers were appointed: J. H. Smith, president, Jno. H. Neale, Sec., F. Murray, F. Hajek, J. Stinson. Next meeting to be at the call of the chairman.

The value of sweet clover is being more and more realized here every year. Being a mixed farming community, and with nearly everyone keeping a number of cattle the year round, sweet clover is found to be the real thing, besides very valuable in enriching old worn out soil. Also with more land being put under cultivation every year, wild hay is not so abundant as it used to be. One farmer reports that he will be seeding 50 acres into sweet clover this spring, and a number of others in smaller quantities. Bees too, are being discussed favorably, and it is expected a few hives will be imported this spring.

Harry Hogan, and Ed Overbo left for Edmonton last night on business. Mrs. Johnnie Overbo and daughter returned on Monday from Edmonton where they had been for the past few days.

Mr. William Anderson has moved into the rooms over Mr. E. C. Williams' office.

Monday morning people awoke to find the ground covered with snow, but most of it has disappeared now, but it will help to give the moisture which is needed for seeding.

Born, to Mr. and Mrs. M. Neace at the Viking hospital on Sunday, April 14th, a son.

Mr. Jimmie Walker went to Irma on Sunday to see Dr. Murray and had the stitches taken out of the wound in his head, he is also able to walk around now, and is getting along nicely after the accident he had a few weeks ago.

Mr. J. Stronach's team ran away on Saturday but no damage was done. Miss Ferries, who is teaching near Loughed spent a short time on Sunday with her parents here, Mr. and Mrs. Ferries.

Mr. B. Wachter, foreman of the B. & B. gang of the N. R. who are at Wainwright spent Sunday at his home here.

The Ladies Aid are putting on the play entitled "Wanted - A Wife" on Friday evening, April 26th in the United Church at Kinsella, commencing at 8:30 p.m. sharp. Admission, adults

Jarrow Broadcast

We were all very interested to hear of the wedding of Rev. A. A. McNeil, our pastor, and Miss Isabelle Swaddle, of Kelsey, which took place on April 9th. Mr. and Mrs. McNeil are visiting in Calgary and Banff after which they will return here.

The Community Club will hold their next meeting April 22nd. Mr. and Mrs. B. McDougall and Mr. and Mrs. H. H. McDougall are the entertainers and a real good time is promised.

Mr. and Mrs. Barton left for Moosemin, Sask., Saturday night owing to the very serious illness of Mr. Barton's father. We have since learned that Mr. Barton Sr. died and our sympathy is extended to Mr. and Mrs. Barton in their loss.

Mr. C. Nicholls motored to Minburn on Sunday.

Mr. and Mrs. Linton spent Sunday in Innisfree.

Mr. and Mrs. Jenkins made a flying trip to Edmonton this week end. Fisher and Bridgeman have sold out their general store business here to Mr. W. Boyd of Ryley who takes possession next Monday.

Mr. and Mrs. J. C. Curlett have returned after spending the winter visiting their old home in the East. They visited in Philadelphia, New York, and Toronto, but were pleased to get back to the prairies again.

Mr. and Mrs. Fisher motored to Edmonton on Sunday.

The concert given at the Valley school by the Boy Scouts and Girl Guides of that district, on Friday the 12th was a great success. The school was packed and the entertainment and dance which followed was enjoyed by all.

A number, from here attended the play, "Safety First" in Irma on Friday evening. They all thought the play was very good and well put on.

Mr. J. Stead and family have moved to a farm north of Irma.

Women's Institute Column

The Irma Women's Institute are holding a tea, sale of home-cooking, a hot-dog stand for the kiddies, and a table of sewing, on Saturday afternoon, April 20th from 2 to 7 o'clock in Kiefer's Hall.

The next meeting of the Women's Institute will be held at the home of Mrs. William Masson on Thursday, May 2nd at 3 o'clock. Mrs. Milburn will give a paper on "Canadianization and National Events", which will be followed by other interesting topics during the year. Everybody welcome.

Wedding Bells

Miss Helen Sako, oldest daughter of Mr. and Mrs. Sam Sako and Mr. L. Reber were united in marriage at the home of the bride, on Strawberry Plains last Monday evening. After the ceremony a number of friends of the bride and groom met at the home and enjoyed a wedding dance till the wee small hours of the morning. The bride and groom are both well known in the district south of Irma where they have resided for a number of years and where we understand they will make their future home.

50c, children 25c. The cast of the play is as follows:

Richard Wilkins, The \$100,000 heir, Mr. Claude Wachter.

Jacob Flint, Lawyer, Mr. Jack Neale.

Petunia, Vera & Estelle The young ladies who call to see Richard Wilkins, The Misses Alice and Mae Murray, and E. Anderson.

Grandma Crabbe, Mrs. R. Eaton. Jane Milton, niece of Mr. Crabbe, Miss Dora Eckart.

Father Crabbe, Mr. Frank Williams.

Mother Crabbe, Mrs. Jack Allen. Marie Crabbe, Miss Nida Larue.

Mabel Crabbe, Miss Ella Cormack. Jack Crabbe, Mr. Pender Smith.

Maid Nora, Mrs. William Anderson.

Coach, Mr. R. Eaton.

We have not had any service here for the past two Sundays at the minister here, Rev. A. A. McNeil is away on his honeymoon. So far as we know, there will be no service next Sunday.

Mr. D. Corbett was at Edmonton for a day the past week.

Hon. H. G. Carroll, vice-president of the Quebec Liquor Commission, received official notification that he had been named lieutenant-governor of the province of Quebec.

R. B. Graham, Crown prosecutor in the Winnipeg police court since 1913, has been appointed police magistrate in succession to Sir Hugh John Macdonald, deceased.

Pending the world-wide abolition of slavery and forced labor, victims of the two institutions should at least enjoy the advantages of the eight-hour day, according to the International Labor Bureau at Geneva.

Chad in bright sweaters, knickerbockers and high boots, with pack satchel slung across his back, Hilda Beaton and Barbara Thorning, two English girls, have set out from Toronto on the first leg of a journey to Vancouver, B.C.

Negotiating a distance equal to that around the world at the equator, 25,000 miles, a motor cycle which carried eight British drivers in relays for 23 days and 22 nights covered the entire distance, 25,190 miles, in 551 hours 8 minutes.

The Manitoba Department of Education has agreed to form a circulating library of professional books for school teachers. By paying the postage on books all teachers in the province will be able to secure this aid in their profession.

Miss Ellen Hemmison, B.S., of Mount Allison University, Sackville, N.B., won the travelling scholarship awarded annually by the Canadian Federation of University Women for 1929-30. Miss Hemmison is dean of women, and instructor in the department of French, at Mount Allison.

E. W. Hearty, president of the Canadian Pacific Railways, stated that the Duke of Gloucester, third son of the King, would open the new railway hotel being completed in Toronto, provided he could be in Toronto at that time. The Duke of Gloucester will arrive at Vancouver in June to start a tour.

New Idea in Surgery
Dr. Karl Hutter, of Vienna, reveals a method of performing a bloodless surgical operation with a needle-shaped electrode, which coagulates and removes diseased tissue without the use of a knife. It has been used so far to remove warts, birthmarks, moles, and the like, but can be used for more serious operations, Hutter said.

Edmonton's School Enrollment
Edmonton's school enrollment is 14,900, which is more than double the city's entire population twenty-five years ago.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

Bible Three Centuries Old
Was Used To Swear In New Vice-President Of United States
A most unusual Bible was used to swear in the new Vice-President of the United States, Chas. Curtis, of Kansas. It is the property of St. John's, of Salina, Kansas, and is 350 years old. The Bible has been in the Gels family at least five generations. It was printed in Cologne, Germany, in 1564, and was copyrighted by Emperor Ferdinand. It is bound in wild boar skin with wooden inner covers. The book is printed in two tones, red and black, in clear traced type, and contains many woodcut pictures. One scene shows an angel driving the devil out of Paradise. Satan is shown as a large horned dragon. On the frontpiece, which bears the German imperial seal, are depicted a series of scenes, the first being the medieval artist's conception of the fall of man. Eve is shown handing Adam an apple. The second is of an angel driving the two out of the Garden of Eden.

FOR MOTHERS OF YOUNG CHILDREN

Mother's are quick to probe anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Compulsory Insurance
Privately owned automobiles will be exempt from compulsory insurance for one year at least in the province of Alberta according to a bill of the Legislature. Taxicabs and heavy cars of all descriptions will be compelled to carry a specific amount of insurance.

Heart Palpitated Nerves Bothered Her Sleep Was Broken

Mrs. Fred A. Pugsley, East Southampten, N.S., writes: "I was bothered very much with my nerves and palpitation of the heart, and my sleep was broken at night. I decided to try

MILBURN'S HEART AND NERVE PILLS
and after I had taken six boxes I found that they had done me so much good I will gladly recommend them to all those who are troubled with sleeplessness caused by their heart and nerves."
Price 50c. per box at all druggists and dealers, and on receipt of receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Very slow plumber: "Oh, I remember your little boy, morn. 'E were in the infants' class when I went to do a job at the school some time ago."
Exasperated Lady: "Indeed, and what class was he in when you'd finished?"

More than 844,000 of England's citizens received poor relief in September of 1928.

harmless. It has remained the standard with physicians in the 50 years since its invention. It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.
Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

COULD NOT DO MUCH WORK

Eczema on Face, Neck and Hands. Cuticura Heals.

"Eczema broke out in pimples all over my face, neck, arms and hands. I had to keep my skin scratched up so they would not irritate the breaking out on my arms. I was ashamed to go around on account of the eruptions and the irritation was terrible. I could not do much work, and the irritation kept me awake at night."
"I sent for a free sample of Cuticura Soap and Ointment and it gave relief. I purchased more and in about two weeks I was completely healed."

Vancouver Grain Port

Going Ahead With Port Development On a Big Scale

Vancouver is experiencing a movement of grain comparable to that of the rush season. Storage on March 15th was 5,210,153 bushels in Vancouver elevators, with 534 Canadian Pacific cars on spurs, and 663 cars west of Field. There were 15 boats in port with a united capacity of 2,500,000. Lake head storage was 73,479,000 bushels in elevators with an additional 8,655,000 in boats for winter storage.

Preparing for continued growth of the westward flow of grain from the Prairie Provinces, Vancouver is going ahead with port development on a big scale.

Cat's-eye is a kind of quartz, much valued as a gem, opalescent, and of various shades.

Mild Weather Thaws Igloos

Eskimos Are Made Homeless By Action Of the Sun

It might be expected that winter would be winter at Tavane Bay. For Tavane Bay is 250 miles north of Fort Churchill, where the Hudson Bay Railway, through Manitoba's rich northern mineral fields, will end. But the North has been much milder. Even the Eskimos will tell you that. As usual, this past winter, the Eskimos of Tavane Bay built their igloos, their little round houses of snow and ice. As usual they were buried now and again by blizzards. But quite out of the usual was the thaw which struck them just after Christmas. The temperature soared to 21 degrees above zero. The walls of the igloos collapsed, and dozens of families were made homeless. Yet the Eskimos were cheerful. Their attitude was: "Who said our country was frozen up?" And building materials were cheap. As soon as the weather was normal again, they set to work and rebuilt.

Empire Marketing Board

Spending Money To Create An Interest In Canadian Farm Products.

A bulletin from the Saskatchewan Department of Agriculture draws attention to the fact that Canada is spending money liberally to create an interest in Canadian farm products in the British Isles, and that the Empire Marketing Board, in its turn, is educating the people of the British Isles to purchase Canadian farm products. It points out that the British Empire holds unexcelled opportunities to develop markets within her own borders, and urges the farmers of the West to take advantage of the opportunities thus created to establish a market which will be permanent in character and ultimately more profitable.

New Use For Mathematics

Can Be Invaluable In Studying Epidemics Says Sir Ronald Ross

War on influenza has been declared by Sir Ronald Ross, of London, England, whose malaria researches have saved the lives of thousands. Mathematics will be his weapon. Such importance is attached to the work which is being carried out jointly by Sir Ronald and Dr. Hilda E. Hudson that the Royal Society is assisting financially.

"There are many events that happen to a proportion of the public which we call 'happenings,'" said Sir Ronald. And all these happenings have their equations. Influenza epidemics, going down with measles, being killed by London traffic, making a fortune—all these things are 'happenings' and all have their equations. From the equations much can be learned about the 'happenings.' The equation will tell you why so many people have got run over, what chances you have of getting run over or amassing a fortune, when we may expect a wave of a particular illness, and much more.

The equation we get for every type of epidemic will be a something obtained by mathematics which will be of great help to medicine. It will be a hypothetical method of studying epidemics which will help the work of prevention in such an epidemic as the present one of influenza. Amazingly wide search of records will have to be made to provide us with the figures we require.

We know that an epidemic will die by exhausting its supply of material. It is rather like a plague that is eventually wiped out because it has killed everybody. Such things as these we know. There is much more to be discovered by equations. Sir Ronald Ross' malaria work so depleted his resources that he had to sell his research archives.

Escalloped Macaroni With Cheese

1 1/2 cupsful Borden's St. Charles Milk.
3 cupsful cooked, drained macaroni cut in two-inch lengths.
1 1/4 cupsful grated American cheese
1 1/2 tablespoonsful flour.
1 1/2 tablespoonsful butter or butter substitute.
1/2 teaspoonful salt, scant.
1/2 teaspoonful pepper.
Few grains paprika.
Make a white sauce of the flour, butter, seasonings and the milk undiluted. Stir in the macaroni. Thoroughly oil a rather shallow baking dish, put in a layer of the macaroni, then oil in this way until all is used and making the last layer one of cheese. Bake in a moderate oven until browned, about thirty-five minutes.

Princess Mary has been elected president of the Yorkshire Beekeepers' Association, stated to be the largest society of the kind in the world.

Young women in Japan are rapidly taking the place of men as elevator operators, as well as in many other positions connected with business and industrial advancement.

Gold threads are made so fine in India that 1,100 yards weigh only an ounce.

All are born with equal opportunity, but all are not born with equal luck.

There may be splinters in the ladder of success, but you don't notice them unless you're sliding down.

The exact measure of time covered by a day is 23 hours, 56 minutes and 5 seconds.

Predicts Next War Will Be Sudden

English Professor Says Britain Could Not Wait To Consult Dominions

Great Britain will either lose the next war or lose the Dominions, Brigadier-General J. H. Morgan, K.C., professor of constitutional law at the University of London, said in a lecture at the university.

The next war, he said, might come like a thief in the night and might be fought and won in the course of three weeks. There probably would be no ultimatum to warn of the conflict. No British government, he continued, would be likely to dare to define what was a flagrant violation of right necessitating immediate action without consulting the Dominions.

While the jurists were trying to decide whether there had been a violation of rights and while the parliament of the Dominions were being summoned, the war would be fought and won, the lecturer declared. The result, he said, would be that if Great Britain stopped to consult the Dominions, she would lose the war, and if she did not consult them, she would lose the Dominions.

Brigadier-General Morgan has had a distinguished military as well as a brilliant academic career.

Alberta Wheat Pool Elevators
Forty-five elevators will be built at as many different points by the Alberta Wheat Pool this year. This will bring its total up to 374 elevators.

Calgary's Aero Club
Calgary's Aero Club now has 814 members, of which 145 are taking instruction.

About all you can say for jury-men is that they shorten the jury's deliberations.

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant, you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it, none mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Firestone

HAS ALWAYS LED IN SAFETY

The first non-skid tread ever put on a tire was on a Firestone. From that day to this Firestone has been first in safety. No tire can come close to the rugged long-wearing Gum-Dipped Tires. Their famous non-skid tread has more gripping edges than any tread on the road. Give your car the wonderful protection of new Firestone Gum-Dipped Tires today. They hold all world records for endurance, safety, economy. That's why they deliver most miles per dollar.

CHAPTER XVII.—Continued

Donald turned to Wainwright. "Are you going to let her run? Is it safe for her to enter a race with all these men?"

"I couldn't stop her now, and besides," he added with a touch of pride, "she can hold her own with any of them."

The old trapper made his way to Donald's side. His leathery old face, with its multitudinous wrinkles, wore a perturbed expression. "That fellow Lafonte is cut out. He's full of dirty tricks; 'tain't safe for Connie to ride."

Donald turned anxiously to Wainwright.

Connie's father shook his head. "I'm afraid it is too late now. There's a lower voice he added: 'You must know the reason for her entering this race.'"

Donald looked puzzled for an instant. Suddenly it dawned on him. "The purse?"

Wainwright nodded. "It would break her heart if I forbade her to ride, now that she has gone this far. She must have decided suddenly, as she never mentioned it to me."

The Rennie Company had put up a purse of two hundred and fifty dollars. There was to be a collar taken after the race to add to this purse.

The horses trotted down the course. Connie's was rearing and prancing, and it was with difficulty that she managed to get him to join the others. She leaned forward to whisper words of quieting in his twitching ears. Down the course they came. They were in nice alignment as they passed the judges' stand.

"Go!"

Connie on her spotted cayuse showed a bright splash of colour in the midst of her darker competitors. Lafonte's dark face lighted with a savage gleam as he swung his horse to the inside or "pole."

Running neck and neck with him was his hated rival, Paul John, leaning low on his horse's neck and shouting unintelligibly in Chinook. Connie was with the stragglers five lengths in the rear. This was new to Pegasus, and he was bewildered by the crowding horses about him. As they turned the corner of the course, Lafonte's horse stumbled, and before he righted Paul John had slipped into the lead. Cursing wildly, Lafonte settled himself in the saddle, his horse's head at the flank of his rival.

Hundreds of times Pegasus had travelled this field with Connie clinging to his back, slowing up for shrubs and trees and making sudden

bursts of speed in the open. That had been vastly different to being surrounded by running horses and listening to the wild cries of their riders and the roaring of the excited crowd.

At the moment Lafonte lost the point of vantage to his rival, Connie leaned forward and emitted a peculiar clicking sound at the same time striking her moccasined feet into the horse's sides. Pegasus's ears twitched back at the sound of the voice he loved. "Now I know what you want," he seemed to say, as his beautiful neck stretched out and his hoofs spurned the ground. His graceful body lowered until it appeared to the spectators as though he were just skimming the earth. He moved with a springy stride, the muscles of his sinewy frame working with a sliding movement beneath the glossy skin. Gradually he drew away from the horses travelling with him. Foot by foot he traveled upon the leaders.

The party in the judges' stand came to their feet to shout approval. The girls were cheering wildly for Connie as she crept nearer the front.

Donald was leaning forward with flushed face, his eyes glued to the spotted cayuse, a deep admiration in his heart for the intrepid little rider.

Little Andy jumped on the rail. "Strike me pink!" he yelled, "look at that 'oss run!" His eyes were bright with excitement. "A 'undred dollars on the spotted 'oss!" he shouted hysterically.

"I'll take you," said a voice.

"'Ere you are, mate! Let's make 'er two 'undred. I'm for me 'ome girl she saved me blinkin' life, God bless 'er!"

As they neared one of the corduroy bridges Connie's neck and back with Lafonte. The latter galloped up as Pegasus came opposite. The roar of the crowd came dimly to Connie's ears above the swish of air and the rumble of hoofs as they struck the culvert. An evil look crossed the half-breed's face. He swung his horse sharply to the right. Connie's horse floundered. Struggling to right himself, he fell off the bridge and landed with a dull thud on the soft ground below. The forward motion of the cayuse had stopped, so suddenly that Connie was thrown like a projectile to a clump of bushes fifteen feet distant.

For an instant the big crowd was paralyzed. Then there went up a great groan of horror. The old trapper came to his feet, his eyes flaming, a hectic flush on his cheeks. Like a flash his hand flew to his six-shooter, and the long-barrelled Colt was trained on Lafonte. As he pulled the trigger Douglas struck his arm, and the bullet sped harmlessly over the horseman's head.

"My God!"

The words whistled through the set teeth of big Jack Gillis. "Let me get at him!" he cried hoarsely, as, pale of face, he struggled through the crowd. He would have thrown himself in front of the oncoming rider if strong hands had not clutched and held him. Connie's father fell

back a step as if struck a sudden blow, his eyes wide and staring. Andy's head fell forward, and he groaned aloud. Janet covered her face with her hands and sat down wearily.

Donald leaned from the judges' stand, his face pale as death. A vision of Connie's broken body came before his eyes. "Oh, God!" he cried aloud in a voice vibrant with pain. He covered his eyes as though in dread of looking at the spot where she had fallen.

A shout came from the crowd—then a cheer that seemed to rock the hills. "Look! look!" they shouted. Donald's heart was beating tumultuously. Could he believe his eyes? Connie was standing upright. She appeared to glow slightly; then, like a flash, she was at her horse's head. Trembling and smothering, Pegasus came to his feet. With a bound she was on his back and seized the reins. Pegasus reared like a stag and was off down the course at the tail end of the race.

As Connie passed the judges' stand she was well up with the tail-riders and gaining steadily. Her face was pale and tense. A smear of red showed on her arm, and a little stream of blood trickled down her forehead from the wound invisible in the thickness of her hair.

The crowd became suddenly quiet as Connie thundered past—a silent tribute to her glorious pluck. But as she crept toward her original position they roared their applause. Pegasus was showing an endurance and speed that had never been equalled in all of that district. As they turned to come down the home-stretch Connie was a good fifty yards behind the leaders. Lafonte's very cayuse was again in the lead by a few feet.

The shock and strain were beginning to tell on Connie. She leaned forward and in a broken, trembling voice she cried: "Oh, Peggy! Win, Peggy! Please! Please! I don't want to lose! I've got to win! Go! Go!" She was sobbing hysterically now, and her small hands were patting the horse's neck.

Pegasus had never heard that tear of supplication in the sweet voice of his mistress before. Nobly he responded to the call. She felt his body lower under her as he sat himself to the Herculean task of overcoming his rival's enormous lead.

Pegasus was using the whip, Paul John, hanging so persistently to his flank, angered him. They thundered across the corduroy, and at the sound of Pegasus's hoofs on the corduroy poles Lafonte turned to glance behind. A look of astonishment crossed his face as he saw the golden-haired rider so close. With a curse he struck his horse a brutal blow that caused the animal to lose its stride momentarily and fall back in line.

Paul John was shouting. "Slowly, but surely, Connie's spotted cayuse was closing the gap between himself and the two leaders, sweeping along at a terrific pace, his body and limbs moving with the rhythmic grace of a thoroughbred. Connie was leaning so low that the heavy white mane of her horse was brushing her face. Her hair was streaming in the wind like fine-spun gold. The party in the judges' stand rushed to the railing, leaned anxiously forward to get a glimpse of the running horses as they turned the corner, and cheered lustily as the three riders thundered over the small bridge and came toward the finishing line. Connie was at Lafonte's flank now.

Pegasus's remarkable speed fanned the spectators' excitement to a fever heat. Andy had done so much shouting that his voice was reduced to a whisper. Standing on the top rail, his arms waving, he was shouting huskily, "Come on, Connie! Come on, Connie!"

Donald's dark eyes were glowing as he watched the slender figure clinging to the flying horse's back. "What a pity if she loses," he said under his breath. Leaping to the rail, he joined in the shout of encouragement to the straining Pegasus.

With one hundred yards to go, Connie uttered one last appeal to her flying steed. Above the drumming of hoofs the spectators heard her voice ring in passionate entreaty. "Now, Peggy! Now! Go! Go!"

With nostrils distended, his breath coming in choking gasps, his eyes bulging, and the voice of his adored mistress ringing in his ears, the gallant animal with a burst of speed that made the onlookers marvel, ranged himself alongside his labouring rivals.

Ten yards from the finish-five yards—they were neck and neck. Then, summoning his last ounce of strength, Pegasus leaped forward as though he would annihilate time and distance. With eyes nearly blinded with dirt tears and the roaring air,

CROUP

Spasmodic Croup is frequently relieved by one application of

VICKS

VAPORUB

Over 21 Million Jars Used Yearly

Connie saw Pegasus hurt himself past the winning post—a winner by half a length!

The ear-splitting roar that went up from the race-mad crowd must have caused the marmots on the slides near the distant glaciers to seek their holes in terror. A flock of mallard ducks, which had floated peacefully near the centre of the placid lake throughout the day's commotion, rose with frightened cries to seek a more secluded spot in which to finish their afternoon's siesta.

The crowd had seemingly gone mad. The atmosphere pulsated with a wild tumult of sound. Hats were thrown in air and throats were strained with shouting.

Donald found himself with his arms about Andy, dancing and cheering in a frenzy of joy.

(To Be Continued.)

Airplane Perfection

Almost Complete Extinction Of Mechanical Error In Construction

The human factor is now of paramount importance in aviation in all its branches in Canada, according to officials of the government who point to the almost complete extinction of mechanical error in the construction of aircraft in the Dominion during the past year.

In the earlier days of aviation in Canada, frequent accidents were attributable to engine failure, faulty construction and defective parts. Last year only one airplane accident could be blamed in any way on a defect in either machine or engine. "It is now time for our pilots to devote themselves most earnestly to perfecting their flying," an official said. "If the personnel operating aircraft do their part as the air engineers have already done theirs, we will rarely hear of aircraft accidents."

Hardly Likely

A young man was being questioned by a life insurance official about his family's health. He was asked: "Or what did your grandfather die?"

The applicant hesitated a few moments, and then stammered out: "I'm not sure, but I think he died in infancy."

Minard's Liniment' for the Grippe and Flu.

"Jack wanted to know if I believed in 'documents'."

"That was rather a leading question. What did you say?"

"I told him I wouldn't even let my imagination run away with me."

More than 90,000,000 incandescent lamps were made in Germany in the past 12 months.

Tribe Of American Indians In Siberia

Soviet Officials Hope To Save Them From Extinction

Efforts are being made by the authorities to save from extinction a nomadic tribe of "American Indians" in Siberia which has already dwindled to 403 persons.

The tribe, known as Karagan, was discovered some years ago in the Turan district of Siberia. In appearance, language, and customs they resemble so closely the Red Indians of North America that leading Russian anthropologists were convinced of their American origin.

A recent investigation reports that the tribe has such a high death rate that it has only a few more generations of life. The government has therefore set aside a large tract where no other tribes will be permitted to hunt. It is hoped here that these exclusive "happy hunting grounds" will increase the material prosperity and in consequence the longevity of the Karagan. A hospital has also been established for their use.

Perhaps the most extraordinary single fact reported about these "strayed" Indians is that crime is entirely unknown among them. It is said that they have never heard of murder or theft.

Little Helps For This Week

"So then every one of us shall give account of himself to God."—Rom. xiv. 12.

God bends from out the deep, and says,

"I grieve thee the great gift of life! Wast thou not called in many ways? Are not my heaven and earth at thy office?"

I gave thee of my seed to sow; Bringest thou Me thy hundred-fold?"

Can I look up with face aglow, And answer, "Father, here is gold?"

—James Russell Lowell.

We are not our own, but His; and we are to live according to His commandment. Whatever we bury out of sight we must account for.—N. L. Frothingham.

With so thorough a preparation at hand as Miller's Worms, I wonder the mother who allows her children to suffer from the ravages of worms is as much as culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a miracle to rid it of these destructive parasites, especially when it can be done without difficulty.

Canadian Industries

A recent survey of Canadian industries shows 6,500 groups of articles fully or partly manufactured in the Dominion, while approximately 1,600 Canadian firms or corporations are active exporters.

The new underground railway station at Piccadilly Circus, London, was officially opened on December 10, 1928.

Millions For Roads

British Columbia Has a Very Ambitious Programme For This Year

This year's program of road construction in the province of British Columbia calls for an expenditure of \$7,100,000. A further sum of \$2,500,000 is to be spent for maintenance of highways and roads, and \$1,000,000 has been voted by the provincial government for the construction, reconstruction and permanent improvement of trails and bridges required as access to the more important mineral areas within the province.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilleine. Half a teaspoonful of Nervilleine in water makes a most efficient gargle. The germ-killing properties of Nervilleine quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilleine. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilleine and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, F.O.B., Toronto.

SPRING SHOWING

of the

NEW CHEVROLET SIX

—a Six in the price range of the four!

WE cordially invite you to visit our special Spring display of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see displayed a line of beautiful models that bring you every advantage of six-cylinder performance in the price range of the four . . . six-cylinder smoothness, six-cylinder reserve power, six-cylinder speed and six-cylinder acceleration.

And this amazing six-cylinder performance is matched in impressiveness by the beautiful new Fisher bodies. Longer, lower and roomier . . . finished in striking new colors . . . and offering numerous outstanding comfort and convenience features—they introduce into the low-price field a new conception of luxury, comfort and style.

Come in any time the week of April 20th to 27th. We want you to see for yourself that no other car in the world can give you so much at prices within the reach of all.

C. 20-4-238

KILLAM MAN FACES CHARGE OF INSANITY

With the crown and defence barristers lining up batteries of arguments and witnesses, the case of Albert T. Erickson, prominent Killam, Alta. farmer, charged with insanity, which promises to be one of the sharpest legal battles of the year, will get under way at Killam on April 17th and is expected to last three days, so involved are the arguments and circumstances surrounding the case.

Mr. Erickson has already made application for permission to sue the government for \$10,000, alleging false commitment to the mental hospital at Ponoka and the result of the case at Killam is expected to govern the decision on this matter.

A judicial party headed by Col. George B. McLeod, police magistrate of the city, the barristers, and official court orderlies will leave Edmonton on Tuesday evening, April 16th, for Killam, and the case will open at 10 a.m. Wednesday.

Mr. Erickson is a well-known farmer of the Killam district and exceedingly popular among his neighbors. He was committed to Ponoka, released and his name then put on the police docket in Edmonton. It stayed there for several adjournments and Magistrate Primrose waived jurisdiction to the presiding magistrate at Killam. —Edmonton Bulletin.

ADDITION TO BUICK LINE ANNOUNCED

Will Add Lower-Priced Six to Present Line.

Oshawa, Ont., April 9th.—Announcement has been made by R. S. McLaughlin, President, General Motors of Canada, Limited, that McLaughlin-Buick will add to its manufacture of Motor Cars by building a new six-cylinder automobile.

"The new car will offer a Buick-built product in a lower price field," he said. "It will be entirely different in design and appearance and will in no way replace or conflict with the established McLaughlin-Buick line. The name of the new car, together with its details, will be made public in the early summer."

"Does your bride enjoy cooking?" asked a married man of his son who was recently married here. "Yes," the young fellow replied, "Why she even took the trouble this morning to phone her mother to make sure if she should use soft water for soft-boiled eggs, and hard water for hard-boiled ones."

RED DEER BOY WINS ORATORY CHAMPIONSHIP

To Walter B. Macdonald, age 18, a student of Red Deer High School, goes the honor of representing Alberta in the Dominion finals of the Canadian and International Oratory Contest. Walter, after winning in the southern Alberta division, was given the judges' decision by a narrow margin over Gwendolyn Gant of Grande Prairie, the northern Alberta semi-finalist, in the final contest at Edmonton, Friday night. As the result of his victory, in addition to winning a handsome cash prize, he will be given a trip as the guest of the Calgary Herald and Edmonton Journal, to Toronto where he will compete with representatives of the other provinces for the Dominion championship.

CANADA LUTHERANS MEET IN CONVENTION AT CAMROSE, ALBERTA

Camrose, Alta., April 16th.—The Annual Convention of the Norwegian Lutheran Church of Canada, will meet on June 12th to 16th, in Camrose, Alberta.

At the opening session, Wednesday, 10:30 A.M., Rev. A. K. Odland, Precepsville, Sask., will deliver the Convention sermon. Altar Service by Rev. S. Wessel, Edmonton, Alta., and opening remarks by Rev. J. J. Akre, President of Canada District. The topic for the afternoon session: "The Christian Home and Training for the Young", will be introduced by Mr. D. L. Nelly and discussed by Mr. P. B. Anderson.

Rev. A. J. Gubherud, Atwater, Sask., introduces the subject "What the Church at Large has a reason to expect of its members". Discussion by Rev. N. A. Bjelke, Ryley, Alta. "Shall the Norwegian Lutheran Church of Canada Constitute itself as an independent Church body" will be discussed by Mr. L. E. Loveseth, Mr. A. B. Solberg, Rev. A. H. Solheim, Calgary, Alta., and Rev. A. Elle, Horse Butte, Sask.

"The 400th Anniversary of Luther's Small Catechism" introduced by Rev. B. M. Hoffenring, Battleford, Sask., is slated for the Saturday afternoon session.

Communion Service on Sunday morning with address by Rev. O. Asper, Sylvan Lake, Alta. and sermon by Rev. H. L. Urness, Regina, Sask. In the afternoon ordination of candidates for the Ministry by President Akre. At this session Missionary Ida Grouch will speak for Foreign Missions and Rev. K. O. Kandal, Admiral, Sask., for Home Missions.

Here is the idea of progress among the young people of today:

A kiss, a sigh, fond goodbye,
And she is gone.
A smile, a curl, another girl;
And the world moves on.

VIKING BUTTER
BEST IN CANADA

(From The Viking News)

Viking Creamery Butter continues to hold the high place which it secured for itself years ago through quality production it would seem, for statistics from the Dominion Department of Agriculture show that while the average of all the creamery butter graded last year was as follows:

In the Dominion of Canada—Special and 1st, 79.8 per cent; 2nd, 15.8 per cent; 3rd and No Grade, 4.4 per cent.

and in the Province of Alberta the average of all creamery butter graded during the year 1928 was as follows:

In the Province of Alberta—Special and 1st, 70.4 per cent; 2nd, 22.9 per cent; 3rd and No Grade 6.7 per cent.

Viking Creamery Butter graded as follows:

Viking Creamery—Special and 1st 80.9 per cent; 2nd, 9.00 per cent; 3rd and No Grade 1.2 per cent.

The sum and substance of the figures given is that of all butter graded for the Viking Creamery last year, there was an average of 10 per cent.

more special and 1st grades than the average for the entire Dominion, and compared with the Province of Alberta there was an average of 10.4 more specials and firsts than the average for the entire Province. There are two or more factors which are responsible for this; first it would indicate that the patrons of the Viking Creamery as a whole take an interest in their produce and see that it is delivered in good condition, and secondly and just as important, or an even more important factor is that of manufacture, for bad butter can be manufactured out of good cream; and the figures would indicate that manufacturing methods compare very favorably with the rest of the country.

From the producers standpoint the figures should be very gratifying for they indicate that due to quality of butter manufactured from their cream they are assured of a higher price than they would receive should a lower grade of butter be made from the excellent cream which they produce.

Mr. and Mrs. J. L. Dadds arrived home Monday noon from a six weeks trip that has taken them almost from one end of the continent to the other.

Leaving here early in March they travelled to the coast. At Vancouver they visited at the home of Dr. and Mrs. Hotson, former residents of this place, who have built a splendid new home in Vancouver. In California they visited several of the Viking colony, Mr. and Mrs. Perry Dillane, and Mr. and Mrs. Art Day, at Chula Vista, California. Vis Day, and several other former Vikings. They also visited at points in Mexico, then travelling through the middle western states up to Sterling, Ont., and then home to be greeted by a regular April snow shower.

Announcement is made in this week's News of the sale of the W. L. Campbell department store to Mr. R. J. Darrah, of Vancouver. The store has been closed for stock taking since Monday but will be opened under the new management on Thursday of this week. The new proprietor comes highly recommended as a business man and citizen. He was formerly in business at Islay before moving to the coast. Not being satisfied at the coast he sought a new location and returned to Alberta and finally made a deal for the W. L. Campbell store here, being satisfied that this community and district offered as good advantages and prospects in which to do business and reside as any in Alberta.

Mr. Campbell is one of the pioneer business men of this town, having come here about the time the first lots were being in the townsite. From a small beginning he built up a substantial business which he has now sold to Mr. Darrah. He has always taken an active part in the social, church and civil life of the community having been a member of the town council for several years, and in all movements for the betterment of the community he has been prominent. His plans for the future have not been decided, but we understand that he and his estimable family well remain with us a few months longer.

A very pretty wedding was solemnized on Saturday, April 13th, between Mr. Geo. Kirtley and Miss Mary Rutherford, both of the Viking district. The bride only arrived in Viking on the Sunday previous from County Durham, England, the bridegroom having been here for some time he also hailing from the same County.

W. H. Anderson, local manager of the branch of the Bank of Montreal, has received word that he has been promoted to a position in the head office of the bank at Calgary, and will be leaving shortly for that city.

M. D. BATTILIER
COUNCIL MINUTES

Councillors of the Municipal District of Battle River No. 423 met in Council room, all members present. Minutes of last meeting were read and on motion of Mr. Burton were accepted as read.

Moved by Mr. Vesey that report of Returning Officer in reference to vote on herd by-law be accepted, being as follows: Div. 1, in favor 18, against 7; Div. 3, in favor, 34, against 5; Div. 6, in favor, 31, against 14. Cd. Herd By-Law No. 25 was read.

Moved by Mr. Santee that By-Law No. 25 pass its first reading. Cd.

Moved by Mr. Vesey that By-Law No. 25 pass its second reading. Cd.

Moved by Mr. Burton that By-Law No. 25 pass its third and final reading. Cd.

Moved by Mr. Burrell that Roy W. Hay be appointed auditor for the 1929 audit and receive \$100.00 for same. Carried.

Moved by Mr. Burton that Council meet regularly on the second Tuesday of each month at 10 A.M. Cd.

Moved by Mr. Smallwood that Council cancel pound on N. E. 34-44-9-10th. Carried.

Moved by Mr. Smallwood that Wayne Mitchell be appointed pound-keeper with location of pound on S. E. quarter Sec. 2-45-9-4th. Cd.

Moved by Mr. Burton that correspondence of W. E. Zinkan be placed on file. Cd.

Moved by Mr. Vesey that Secretary notify the Royal Alexandra Hospital that Mrs. Emma Edward is unknown to any of the Councillors of this municipality. Cd.

Moved by Mr. Santee that the costs of all herd by-law elections be taken from General Fund. Cd.

Moved by Mr. Burton that petition of ratepayers for a herd by-law in Division 5 be accepted and tabled until next meeting. Cd.

Moved by Mr. Fischer that Secretary advertise for applications for assessing the Municipality, said applications to be in the hands of the Secretary before next Council meeting on May 14th, 1929. Cd.

The following school rates were struck and passed: Glenholm 17 1-2 mills; Strawberry Plains 17 3-4 m; Silver Lane 15 1-2 m; Ascot 15 m; Fabyan 10 m; Lewisville 15 m; Crescent Hill 18 1-2 m; Roseberry 9 1-8 m; Alma Mater 12 3-4 m; Avonleigh 15 1-2 m; Sunny Brae 9 3-4 m; Elm 19 1-2 m; Battle Height 11 1-2 m; Paschenale 12 m; Ross 11 1-4 m; and Education Point 11 mills.

Moved by Mr. Fischer that Returning Officer for herd by-law be paid \$25.00. Cd.

Moved by Mr. Burrell that Deputy Returning Officer for herd by-law be paid \$5.00 and that \$4.00 be paid for polling places held in private residences. Cd.

Moved by Mr. Santee that Secretary write the District Engineer C. N. R. asking to have the crossing between Section 13-45-8 and Section 18-45-7 opened up as same is urgently needed. Cd.

Moved by Mr. Burton that the following accounts be passed and paid: William Santee—Coun. Fees \$41.00; Irma Times—Papers—\$24.00; Western Mun. News—Supplies 5.96; G. B. Gilding—Elec. Exp. 4.00; P. O'Reilly—Elec. Exp. 5.00. Carried.

Moved by Mr. Burton that motion of Mr. Fischer of March 13th, 1929, allowing Councillors to spend 75 per cent. of current municipal tax on public works be rescinded. Cd.

Moved by Mr. Santee that Councillors be allowed to spend 72 per cent. of current municipal tax on public works. Cd.

Moved by Mr. Santee that the following rate of wages be set, man and 4 horses, \$8.00 per day; man and 2 horses, \$6.00 per day; man, single, \$3.50 per day, foreman \$6.00 per day and grader man \$5.00 per day. Cd.

Moved by Mr. Smallwood that Council pay \$25.00 per day for man and engine on road. Cd.

Moved by Mr. Burton that Clark Steele and Wm. Walker be appointed road foremen for Div. 5. Cd.

Moved by Mr. Santee that Harry Mabey be appointed road foreman for Div. 1. Cd.

Moved by Mr. Fischer that W. Myers and Carl Larson be appointed road foremen for Div. 4. Cd.

Moved by Mr. Smallwood that P. J. Harvey be appointed road foreman for Div. 3. Cd.

Moved by Mr. Burrell that Council adjourn. Cd.

"When a girl ceases to giggle, love has become serious to her," says an expert observer. If that is the case a lot of the local girls are not seriously in love, judging from the giggling going on in the post office lobby while they are waiting for the mail to be distributed.

WANT ADS

FOR SALE—7 ft. Massey-Harris Disc in good shape. Price \$35.00—A. A. Taylor, Phone 809, Fabyan, Alta. 25-7-P.

The West's Ocean Port

Announcement that the falls of the Hudson Bay Railway had reached Churchill on Good Friday, is the most welcome news the people of Western Canada have received for some time, heralding, as it did, the realization of a long-entertained hope. For many years Western Canada agitated for the building of a railway to the Bay. It was vigorous, even violently, opposed by Eastern Canada interests, and, politically speaking, the voice of the West was weak in comparison to that of the East. The West, however, kept up its campaign of education as to the merits and feasibility of the route, and, ultimately all political parties in Canada became committed to the project.

Finally, plans for a Hudson Bay Railway assumed definite shape in 1910, when a branch line of the Canadian Northern was completed from Hudson Bay Junction, Sask., to The Pas, Manitoba, and the building of a Government line from The Pas to Hudson Bay was authorized by Parliament. Work commenced the following year with Churchill as the objective. Following a change of Administration at Ottawa, Churchill was abandoned as the proposed terminal, and Port Nelson chosen. The location of the railroad was accordingly altered. The right-of-way was cleared and graded to Port Nelson and steel laid, before the end of 1916, as far as Kettle Rapids, 332 miles from The Pas.

Owing to the war and consequent lack of men and steel, operations were suspended and for some years only part of the completed railway was kept in repair.

The work thus commenced by the Liberals in 1910 was continued by the Conservatives until war, and the after-war period of financial depression stopped the work. The work, however, had only been carried on in a more or less half-hearted manner with the result that progress was slow, and the country, as a whole, lacked confidence in the undertaking, the East regarding it as a waste of public money and in the nature of a political sop to the West.

With the acceptance by Hon. C. A. Dunning of the portfolio of railways in the Mackenzie King Government, a marked change took place. It is an open secret that Mr. Dunning made the immediate and vigorous construction of the road a condition of his entry into the Government. He frankly told the people of the West that he regarded it as "his job" to complete the railway in the shortest possible space of time.

The task of recommitting the road which had fallen into disrepair was begun, and, in view of divergent views which prevailed as to the relative merits of Churchill and Nelson as terminal harbors, Mr. Dunning secured the services of the most eminent British harbor engineer to decide the question. He reported strongly in favor of Churchill, and his report was immediately accepted, and the road again diverted in that direction.

Since then there has been no let-up in construction. It has been pushed forward day and night, in season and out of season, with the gratifying result announced on Good Friday.

In the meantime Mr. Dunning grappled with the problem of building an effective harbor at Churchill and establishing the feasibility of the ocean route through Hudson Straits. Airplane and other surveys, radio, and every modern invention was called into use, and in two years public opinion in the West was not only justified, but the East was largely converted, especially as huge and very valuable mineral discoveries in the northland made accessible by the railway quickly followed.

Although both steel and telegraph have reached Churchill it will require some months yet to fully ballast the road to make it capable of efficiently handling trains. There is an enormous amount of work to be done to build necessary harbor facilities at Churchill. That work is in progress and being prosecuted with the same vigor as characterized the building of the railway in the last three years. Hundreds of carloads of supplies, material and equipment for the harbor are even now distributed along the railway to be rushed in at once now that the rails have been laid.

It is confidently anticipated that before the end of 1929 freight will be moving steadily from the prairies to the West's own ocean port of Churchill, and Mr. Dunning has already announced that the Crow's Nest Pass schedule of rates on grain will apply to the Hudson Bay route.

The new route will, it is believed, effect a veritable revolution in Western transportation. In preparation for it both of our great railway systems have been building north and south lines within recent years, whereas formerly their policy was to construct lines as to move everything from east to west and west to east.

With the completion of the Hudson Bay Railway one of Canada's ambitions is being realized. It is in these Western Provinces that depth is to be given to the Dominion, something it has lacked since Confederation brought a Dominion into existence consisting of a long narrow strip extending from the Atlantic to the Pacific just north of the International boundary line.

Big Amount For Research

Ontario Government Increasing the Contribution For This Purpose

In conformity with the Ontario Government's offer "dollar for dollar" plan of assistance for industrial research in the province of Ontario, a bill has been introduced in the Legislature increasing the contribution of the provincial government to the Ontario Industrial Research Foundation from \$1,000,000, as provided in the 1925 act, to \$2,500,000.

Last year legislation was provided for the subsidizing by the Ontario government of \$1,000,000 if the same amount were subscribed by private interests. So enthusiastic was the response that that amount has

Armament Reduction

Great Britain Is Leading the World In This Connection

Right Hon. W. C. Bridgeman's speech of the other day, to which we have already referred, was noteworthy, among other things, for how it indicates how the cost of British naval maintenance is being lessened. Before the War, the First Lord of the Admiralty pointed out, Britain had 114 cruisers. Today she has only 52. Before the War the naval estimates amounted to 24.5 per cent. of the entire national budget. Today they are only 6.9 per cent.

Facts and figures like these speak for themselves. They cannot be given any meaning other than that which they obviously bear. Anglophobes in the United States will probably find them a bitter pill to swallow. But fair-minded Americans will see in them one of the real guarantees of world peace. A nation that is building for war with an eye on instant hostilities, would not do as Britain has done. Britain leads the world today in the move for naval disarmament, as she has always done. —Regina Leader.

A TIRED FEELING

IN SPRINGTIME

Not Sick, But Not Up To The Mark—You Need The Help Of That Sterling Tonic, Dr. Williams' Pink Pills—They Give New Vitality.

With the passing of winter many people feel weak, depressed and easily tired. The body lacks the vital force and energy pure blood alone can give. In a word, while not exactly sick, the indoor life of winter has left its mark upon them. A blood-building, nerve-strengthening tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-round blood builder and nerve tonic but are especially useful in the spring. Every dose helps to make new, rich, red blood and with this new blood returning strength, cheerfulness and good health quickly follow.

If you are pale, easily tired, or breathless at the least exertion, if your complexion is poor or you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches and backaches, if you are irritable and nervous, if your sleep does not refresh you, or your appetite is poor, you need the treatment Dr. Williams' Pink Pills alone can give—you need the new blood, new strength and new energy this medicine always brings. Mr. Marcotte, North Ham, Que., writes: "I have found great benefit from the use of Dr. Williams' Pink Pills. Before I began using them I was in a badly run-down condition, and at times felt scarcely able to work. Dr. Williams' Pink Pills have changed all this and since taking them I am enjoying the best of health. Every man who feels run-down and tired should give this great medicine a fair trial."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuritis, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer, or by mail at 50c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Hungarian Beggars Taxed
Beggars must pay taxes on their incomes, the Hungarian Government has ruled, following an investigation which proved that beggars often made more money than working men. An organization of mendicants has been ordered disbanded.

Live Stock Held By Indians
Holdings of farm live stock by Indians on reserves in Canada during 1928 were as follows: horses, 36,172; milch cows, 9,191; other cattle, 34,485; sheep, 3,261; swine, 9,794; hens and chickens, 108,918; turkeys, 7,715; geese, 5,196; ducks, 7,788.

MOTHER OF TWINS HELPED

Restored to Health by Taking Lydia E. Pinkham's Vegetable Compound

Mitchell, Ont.—"I had little twin babies and for quite a while after I was so weak I could not do my work because of pains all the way up my legs at the back. I also had headaches and got very little sleep. I took Lydia E. Pinkham's Vegetable Compound, and soon I was able to get up and do my work. I have taken three bottles and I am fine, do my work without pain and am again in weight and strength. I will gladly recommend the Vegetable Compound to anyone." Mrs. F. STATION, Box 220, Mitchell, Ont.

For Trans-Siberian Railway

Heavy Shipment Of Railway Material To Leave Vancouver For Russia

Thirty thousand tons of railway material—trucks and steel framing for box cars—will shortly leave Vancouver for the Orient, as equipment for the Trans-Siberian Railway. The order for this material was placed thirteen years ago, but delivery was halted with the outbreak of the Russian Revolution, and the equipment held in the Canadian Pacific Railway's yards, at Coquitlam, until conditions for delivery were favorable.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callosities on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Pensions Act Modified

Amendments Will Make It Easier For Alberta Cities

Amendments to the Old Age Pensions Act passed before the legislature, passed with little more than a nod to the cities in connection with the fear that a great number of the old age pensioners will drift from the rural municipalities into the cities.

An amendment to section four provides that any person having been granted a pension whilst resident in a municipality or an improvement district, shall be deemed to continue to be a resident of that district so long as he continues to reside in the province. This was in line with the suggestion of G. H. Webster, Liberal, Calgary.

In connection with the maintenance of an amendment was passed providing that no person will be called upon to supply maintenance if his or her earnings are such that they do not come within the scope of the Income Tax Act.

Recipes For This Week

(By Betty Barclay)

TWENTY-FIVE CENT PUDDING

- 1 quart water.
 - 1 teaspoon salt.
 - 1 cup pearl tapioca.
 - 1 teaspoon vanilla.
 - 1 tablespoon butter.
 - 1 1/2 cups brown sugar.
- Cook tapioca in water until transparent. Add other ingredients. Bake one-half hour.

AMERICAN SOUTHERN STYLE

- 1 lb. shredded coconut.
- 4 to 6 oranges.
- 1 to 2 cups pineapple (optional).
- 2 bananas (optional).

Cut sections of oranges into about three pieces, add diced banana and diced or shredded pineapple. Sweeten to taste. Add coconut, and serve cold. Delightful variations can be made with any reasonable fruit, as peaches, pears, cherries and strawberries.

The Four Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

The Up-Keep Of Roads

Well-constructed highways are necessary in Canada to meet the instant demands of traffic, but well-maintained roads are even of more importance in the interest of economy. Consequently, provincial road administrative organs and engineers are devoting a great deal of thought and attention to the care and protection of roads. In 1927, the mileage of roads under maintenance in Canada was 44,116 miles, at a cost of \$16,024,617.

A house built of cellular glass, held together by thin iron plates, has been constructed in Japan by a native scientist. There are no windows; ventilation is provided by valves on the second floor.

The case with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Alberta's farm workers received higher wages in 1928 than those of any other province in Canada with the exception of British Columbia.

Minard's Liniment for Coughs and Colds.

Unequalled for Healing Zam-Buk

Canada's Mineral Industry

Third In Importance Among the Primary Industries Of the Dominion

Addressing the 30th annual meeting of the Canadian Institute of Mining and Metallurgy in Winnipeg, S. J. Cook, chief of the mining, metallurgical and chemical branch of the Dominion Bureau of Statistics, said that, "Canada's mineral industry, third in importance among the primary industries of the Dominion, brings to the nation a prestige far beyond the monetary measure of the output. First in nickel, first in asbestos, third in gold, third in silver, fourth in lead and copper, and sixth in zinc, among the world's producers, Canada enjoys an enviable position in the mining world with every prospect favorable to continued expansion."

The Oil For The Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mother who suffers from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the home.

Motorist (after knocking over a butcher's boy): "Are you hurt, my lad?"

Butcher's Boy (picking up contents of his basket): "Dunno, here's me liver and ribs, but where's me kidneys?"

Test Alberta Coal

Samples Are Taken To England For Laboratory Test

Tests of Alberta coal with a view to the securing of a substitute for anthracite will be made at the Wodall Duckham laboratories in England, so Sir Arthur Duckham announced on route east. He obtained samples for this purpose. He is on his way home from Australia, which he visited on an Empire trade mission.

A Foe To Asthma.—Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the most breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Manitoba Taking Her Place

Manitoba is now experiencing a period of intensive mining development. Copper, gold, silver, lead, zinc and other metallic products have been mined, and exceptional opportunities exist for the prospector and mining company.

Minard's Liniment prevents Flu.

Ten thousand bushels of Garnet wheat are to be shipped to Britain and other wheat importing countries to be tried out by the millers there.

YOU CAN'T DYE with Good Intentions

You can get results—after a fashion—with any old dye; but to do work you are proud of takes real aniline. The why we put you in Diamond Dyes. They contain from three to five times more than other dyes on the market. Cost more to make? Surely. But you get them for the same price as other dyes.

Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that re-dyed look; of streaking or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better than any other.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

HUNTER-MARTIN & CO., REGINA, SASK.

Area Of Land Under Crop In Western Canada Will Be Greatly Enlarged This Season

From the Dominion Bureau of Statistics comes a report upon the acreage of land that has been prepared in the prairie provinces for the growing of crops in 1923. That report shows that approximately 1,100,000 more acres of land are now ready for seeding than had been prepared at this time last year. The report thus suggests that the work of the farmers in western Canada is further advanced than it was at the same date in 1922. The statement of the bureau of statistics adds the information that there has been an increase in new breaking in Manitoba and Alberta and may indicate, by this announcement, that the area of land under crop in the prairie region will be enlarged in 1923. Possibly, then the expansion of the wheat-growing area in western Canada is to be continued this year. To those who look back over the records of progress in agriculture in this country that expansion will seem to have been marvellous. In 1897 the total area of land under wheat in Manitoba and the Northwest Territories was 1,010,433 acres. Ten years later the acreage had grown to 2,495,471. By 1909 the amount of land employed for the cultivation of wheat on the prairie had reached 5,062,493 acres. In 1911 it had almost doubled again and amounted to 9,301,293 acres. In 1921 wheat lands accounted for 22,181,329 acres out of a total of about 37,000,000 acres used for the raising of cereal crops. In 1922 a total of 21,223,418 acres was in wheat and in 1923 approximately 23,000,000 acres.

The expansion of the wheat-growing area in the prairie provinces, of course, has accompanied the increase in population in that part of the dominion. Both settlement and wheat-growing, too, have been stimulated by the development of the Marquis variety of hard spring wheat and, subsequently, of some other strains of wheat suitable for cultivation in the prairie region. The experiments of Dr. William Saunders and his sons, which resulted in the production of the Marquis wheat, were undertaken with the object of making available for farmers on the prairies a good variety of the grain that would mature more rapidly than varieties then in use. The success of those experiments, it has been said, very greatly enlarged the territory in the western half of the dominion with which wheat-growing was practicable. Improvements in farm machinery, the use of tractors to draw plows and binders and, of late, the introduction of combined reapers and threshers have all assisted the western farmers to extend the area of the wheat lands of the prairies. Last year those lands produced Canada's largest wheat crop. While the quantity of that crop was satisfactory, the quality of it was disappointing. The lowering of the grade of the crop was due largely to a factor beyond the control of the farmers, namely, the severe frost in August. While that is so, there have been complaints that in some districts a proportion of unsuitable and even poor varieties of wheat had been sown and it has been reported that in the prairie provinces, as well as in some other provinces, there is need for action to check the spread of noxious weeds. At any rate, discussion of the grading of the great crop of 1923 will emphasize the importance of attention to the quality as well as to the quantity of the wheat grown in Canada—Mail and Empire.

Uncle Sam's Best Gunners
The one-hundred per centers among our American cousins will, of course, skip hastily over that page of the newspaper which reports that the two best gunners in the United States Navy are George Phillips, and J. S. Wierzbowski—Border Cities Star.

"You can hunt if you like but you must muzzle your dog!"—Moustique, Charleroi.

Prairie Tourists To Have Sea Cruise

Personally Conducted Tour Arranged By the Canadian National Railways

"Low land and high land and out along the sea." This line of verse applies perfectly to the summer tour which will leave the Canadian National Railways Station at Winnipeg on July 1. Beginning here, the tour which will be personally conducted, will cross the prairies, Saskatchewan and Edmonton, will tarry in Jasper National Park, will strike north through Prince George to Prince Rupert, and will then drop south by steamer on the Pacific Ocean to Vancouver.

Many reservations have already been made to say nothing of inquiries, and there is evidence enough that this year's tour will be as popular as last summer's. On the second day out, the travellers will spend the afternoon at Watrous, and will have an opportunity of bathing in Little Manitou Lake, a mineral lake unique in the prairies. They will see Saskatoon and Edmonton and will drive through Winthrop, Buffalo Park. After a day at Jasper, seeing the Lodge in the mountains, golfing and motoring or riding the mountain ponies, they will see the supreme Mount Robson, Bulkley Gate and Canyon—one of Canada's wonders—and they will walk through the fascinating Indian village of Kitchwanga, which bristles with totem poles. The trip from the northern port of Prince Rupert to Vancouver, along the placid sheltered sea, will be a pleasure in itself, chaperoned by a tour of Vancouver, and then the travellers will be free to go as they please.

Better Turkeys in the West

Association Of Turkey Breeders Formed In Alberta To Help

Breeders of turkeys in the province of Alberta have realized that their industry would be greatly helped by a more general use of larger and better breeding stock. One hundred and fifty breeders of bronze turkeys in the province of Alberta have formed themselves into an association and with the assistance of the Live Stock Branch of the Department of Agriculture, at Ottawa, are having their birds classified according to their quality. Three grades of birds have been decided on and the birds that meet the requirements of the different grades are leg banded accordingly. The highest grade, to be known as "A" grade, are large birds of fine form and plumage, weighing 25 pounds and upwards for young males, and 16 pounds and more for young hens. The second or "B" grade have to weigh at least 23 pounds for the young males and 15 pounds for the young hens. Birds are accepted in the "B" grade even though they show minor defects in plumage and form. The "C" grade birds must be of good type and weigh at least 20 pounds for young males, and 13 pounds for the young hens. The Association have already had 2,356 breeding birds inspected, approved and banded according to the grades to which they belong.

Game Fish Hatchery

Stocking Alberta's Stream With Trout and Other Game Fish

Plans are under way for a game fish hatchery in the Edmonton district making a total of three in Alberta. The other two are at Banff and Waterton Lake. Each can handle 1,600,000 fry a season. Alberta's streams have been stocked steadily since the war and trout fishing has been greatly improved. Including the Red Deer and north the streams are stocked with Loch Leven and Brown trout, fall spawning species, and south of the Red Deer with cutthroat, rainbow and steelhead, spring spawning.

A Model Townsite

A model townsite is to be laid out at Churchill, the seaport terminus of the Hudson Bay Railway, which is being built by the Canadian Government from The Pas, Manitoba. Title to all the land occupied by the townsite will remain vested in the province of Manitoba and disposition of parcels will be by long term lease.

In the year 1922, 34,120 Canadians who had gone to the United States intending to remain there returned to the Dominion for permanent residence.

Women Aviators

Must Compete With Men On Equal Terms In Applying For Pilot's License

Where aviation is concerned, women will have to compete with men on equal terms. This is the dictum laid down by the civil aviation branch of the Department of National Defence, on receiving the first application from a woman, seeking a commercial air pilot's certificate.

Women applying for commercial pilot's licenses, it was stated, will be required to come up to the minimum requirements of physical strength and endurance demanded from men before they can fly commercial machines.

This ruling was adopted by the Civil Aviation branch, officials said, out of regard for the safety of the flying public. It was explained that no great confidence would be instilled in passengers who, on reaching an airplane, were escorted into a plane to be flown by a small woman. In the issuing of private pilot's licenses, a distinction is made between the sexes. A woman private pilot is required to possess only seven-tenths of the physical strength of a man. A woman possessing this strength is regarded as normal, while one possessing the strength necessary to qualify for a commercial pilot's certificate would be regarded as super-normal.

Miners For Peace River

The personal financing of three hundred British miners, enabling them to locate in the Peace River country is the intention attributed to Lord Weir, of Renfrewshire, who was in Ottawa recently. Any scheme of migration would be preceded, of course, by training to adapt the new settlers to an agricultural life.

Brady: "How did your automobile accident happen?"
Holmes: "Too many turns."
Brady: "Yes?"
Holmes: "The road turned right, I turned left and the car turned turtle!"

Winnipeg Newspaper Union Fashion

No. 303—New Elegance. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 1/2 yards of 40-inch material with 1 1/4 yards of 40-inch contrasting.

No. 289—Flattering Neckline. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3 1/2 yards of 40-inch material with 3/4 yard of 40-inch contrasting and 4 yards of binding.

No. 783—Graduation Dress. This style is designed in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 yards of 40-inch material.

No. 981—Attractive Junior Frock. This style is designed in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 yards of 40-inch material.

No. 833—Smart Apron and Cap. This style is designed in sizes small, medium and large. The medium size requires 2 yards of 36-inch material with 5/8 yard of binding.

Emb. No. 1143—Ship designs and Household Linens. Pattern contains two ship designs, measuring about 12 1/2 inches wide and 6 1/2 inches high, including the water line; also two motifs for trimming household linens, measuring 7 1/2 inches wide and 3 inches high (blue).

We suggest that when you send for this pattern you enclose 10 cent additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cut designs for kiddies.

All patterns 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

An Important Industry

Flour and Grist-Milling Is Canada's Second Most Important Manufacturing Industry

The value of production in Canada's flour and grist-milling industry has been climbing steadily since 1923, the Canadian Government Bureau of Statistics shows in a recent report on the industry for 1922. The amount of invested capital is also again on the up-grade an increase of over \$3,700,000 being shown.

The gross value of production for the year under review was \$191,741,470 which compares with \$189,580,741 in 1920; and \$154,805,991 in 1923. Flour and grist-milling is Canada's second most important manufacturing industry in point of gross value of production exceeded only by pulp and paper.

To Manufacture Fertilizer

Chemical Fertilizer Factory To Be Established At Saskatoon

Arrangements have been completed here for the establishment in Saskatoon of a \$750,000 chemical fertilizer factory. It will manufacture chemical fertilizers sulphuric acid, weed killer, sprays and other heavy chemicals. One of the products will be superphosphate fertilizer and it is stated that for its manufacture phosphate rock will be secured from the Banff district in Alberta, and from parts of the state of Montana. A growing market for superphosphate in the Prairie Provinces is anticipated because of the value of this fertilizer in wheat growing.

Canada's Mining Industry

The variety of Canada's mineral deposits, the large scale on which operations are conducted, and the great extent of its mining lands, make it evident that the Dominion is a country of great mineral possibilities, that it is undergoing rapid development, and that it offers an attractive field for exploration and development companies.

Safeguarding The Health Of The Rural Population By The County Health Unit System

More Room At Jasper Lodge

Increased Accommodation Provided For Mountain Hotel

So great has been the demand for accommodation at Jasper Park Lodge, the Canadian National Railways' summer hotel in the Rocky Mountains, that increased accommodation has been found necessary in order to care for the number of guests desiring to visit Jasper National Park, which is Canada's largest mountain park and game sanctuary, it was stated today by A. S. McLean, general superintendent of Canadian National hotels. To provide for the demand for further accommodation, eight new buildings are now in course of erection, the contract for these having been awarded to H. G. MacDonald and Co., of Edmonton, who now have a gang of men at work.

Last year a separate house-keeping cabin for the use of parties desiring to visit Jasper Park accompanied by their families, and taking with them their own staff of servants, was erected, and this was found so popular that another house-keeping cabin, similar to the first, is being erected. In addition, there will this year be four new four-room cabins, each room having private bath and with two sitting-rooms in each cabin. There are also being erected for the 1923 season, three 10-room cabins, each room having private bath and each cabin having a sitting-room. The new cabins are of log and native boulder construction, in harmony with the other buildings which comprise Jasper Park Lodge, and their erection will give accommodation for 350 persons, by the opening of the Lodge on May 21st, this year. In 1922 more than 400 persons were turned away owing to insufficient space to provide for their accommodation at the Lodge, and last year, despite increased space provided, the Lodge was unable to care for more than 200 applicants for rooms.

Have Revised Grade Standards For Barley

Two-Rowed and Six-Rowed Types Must Be Separated

Approval to new grade standards for barley to be given by the committee on agriculture and colonization, of the House of Commons. The new standards provide for the separation of the two-rowed types. It was pointed out that the increasing demand for Canadian barley for malting purposes rendered the changes necessary.

Dr. L. H. Newman, of the cereal division of the department of agriculture, said that in the last eight years the Canadian barley crop had doubled. The last crop year 23,000,000 bushels were exported. The estimated crop this year was 114,000,000 bushels. Of the total exports, sixty per cent. went to the United Kingdom and there was an increasing demand in Germany.

Under present grade standards two-rowed and six-rowed barley were mixed. It was desirable that the new standards be set that would keep the two types separate. The maltster would then know exactly what he was buying for his particular purpose.

Most Empire Colonies Are Not Profitable

But Those Belonging To Britain Are An Exception

With the exception of England's far-flung Empire, and of the Dutch islands in the East Indies, colonies have so far failed to be as profitable as had been hoped. In 1912 only about one-half of 1 per cent. of Germany's imports come from her colonies. Of her exports, only seven-tenths of 1 per cent. were taken by the colonies. Even the Belgian Congo in that year furnished Belgium only 1 per cent. of that nation's imports. It is doubtful, therefore, whether Germany today would derive much economic advantage from regaining her old colonies. That they would be of little value to her as reservoirs for surplus population may be judged from the unwillingness of the Germans before the war to emigrate to the colonies—New York Times.

The ancients knew nothing of life in apartments, but Jonah got the same general effect.

China has a population of more than 357,000,000.

That Canada's present system for safeguarding the health of her rural and small-town citizens is inadequate, and should be replaced by the "County Health Unit" system, is the contention of five outstanding public health authorities representing four provinces, who write in the current issue of the "Canadian Public Health Journal."

From Regina, Dr. F. C. Middleton, D.P.H., Acting Deputy Minister, Department of Health writes to shatter the illusion that the country is a healthier place than the city. He quotes very complete American statistics to prove that the rural death rate is higher than the death rate in big cities. The most probable explanation he suggests, is that "there is a more effective, continuous and organized protection of health in cities than in rural districts." He characterizes the "County Health Unit" as the "greatest single medium for the advancement of public health today" and adds that Saskatchewan is "hoping to have at least four of these full-time health districts in operation this year, and our objective will not be reached until there are at least 25 established."

Dr. Alphonse Lessard, Director, and Dr. Emile Nadeau, Assistant Director of the Quebec Provincial Bureau of Health, write as follows:

"What is the 'County Health Unit' system which we are operating in our Province of Quebec? It consists in the establishment, in a county or in two small neighboring counties, of what might be designated as a 'Bureau of Health in Miniature,' composed of a full-time medical officer, two or more public health nurses, a sanitary inspector and a secretary. The whole population of the county is thus submitted to constant supervision on the part of this staff.

"In the counties where health units have been in operation for a period of two or three years, the general death rate has been lowered, and especially the infant mortality rate and the death rate from contagious and infectious diseases, with also a marked reduction in the number of cases."

How one community saved a \$6,000 hospital fee is told by H. E. Young, M.D., L.D., Provincial Health Officer, British Columbia.

"In the year previous to the opening of our first medical unit, the district in which it was situated had paid \$6,200.00 to the Isolation Hospital for cases that had been sent into it," he writes.

"The following year, 1922, under exactly the same local conditions but with a full-time medical health officer in charge with a staff of four nurses and a sanitary inspector, we were able to reduce the Isolation Hospital charge to less than \$100.00. This was an argument that appealed directly to the municipal council."

Touching upon the matter of finance, Dr. Young writes: "I would urge the serious consideration of the resolution passed by the Dominion Council of Health. 'Resolved that the Dominion Government be respectfully requested to further the establishment of 'Full-time Health Units' by the voting of an annual grant of money for this purpose.'"

"The part-time medical officer of health has been to a large extent a failure," writes Dr. J. W. S. McCullough, C.M., D.P.H., Chief Inspector, Department of Health, Ontario. Yet at the present time, fully 99 per cent. of Canadian municipalities leave their health in the hands of part-time medical health officers.

The County Health Unit is bound to come," he adds—the question is how soon?

Farmer Brown—What's your son Hiram doing in the big city these days?

Farmer Green—Studying for a doctor.

Farmer Brown—What's the matter? Doctor too lazy to study him self?

Why has a greedy man a short memory?—Because he is always for getting.

Ford Do You Know--

THAT Ford is one of few cars built today that has five steel wheels as standard equipment.

THAT the actual road clearance of New Ford is 9 1-2 inches—highest of any American stock car.

THAT the New Ford motor has a cooling system that makes it one of the coolest running motors built.

THAT it is admitted by steel experts that Ford steel is equalled by few and surpassed by none.

THAT the New Ford has a three-quarter floating axle, and that the gear ratio is 3.7.

LET US TELL YOU MORE ABOUT THE NEW FORD — THE FINEST VALUE IN THE AUTOMOBILE WORLD

Carbol & White

Authorized Ford Dealers

British American Gas, Oil, and Grease, Etc.
Main Street, Irma

Main Street

Mr. Foxwell, the local butcher shipped a car load of nice hogs Wednesday.

Mr. Chas. Wilbraham, has commenced the erection of a new house on Third Ave. West.

Mr. L. Larsen, of Hay Lakes, was in Irma, Tuesday, looking over the Irma Store.

Mrs. A. Seton and family moved to Edmonton last Friday, where they intend making their future home.

Jim Pond has all the arrangements made for re-opening his Ice Cream Parlor and Lunch Room, which will take place Saturday, April 27th. A new Frigidaire cooling system has been installed and all new stock is being purchased. Last season while the motor season was on Mr. Pond enjoyed a very flourishing business at this neat refreshment stand and we are sure he will see all his old customers back again the coming season.

TENDERS FOR SCHOOL HOUSE

Sealed Tenders will be received by the Board of Trustees of Strawberry Plains School District No. 1709 at the office of the Secretary-Treasurer up to noon May 1st for the erection of a one roomed frame school building after Plan Number 63-C-704. Plans and specifications may be obtained from Secretary-Treasurer on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent. of the amount of tender should be enclosed with each tender as a guarantee that same is bona-fide. The lowest or any tender will not necessarily be accepted.

Mildred J. Chase, Sec'y-Treas.
P. O. Irma, Nearest Station, Irma, Miles distant, 6.

Now is the time of the year to advertise for those stray horses and cattle. A small ad in this paper will help you.

He chose it for its big car prestige

ASTONISHING how many people who formerly paid high prices for the privilege of big car ownership are now turning to Pontiac. But it's not at all surprising when you consider Pontiac as the Big Six it is... instead of the low-price class in which its cost places it. It's a car you can refer to with a sense of pride... a car that will more than justify your confidence in its prowess. Just see it and drive it if you'd learn why experienced and exacting motorists choose Pontiac for the Big Six prestige it provides.
